JOEL STEPHEN

I am looking for opportunities in the field of software development. I have experience working on an e-commerce website handling the live site and adding features, integration and API's. I am a quick learner and computer science has always been my passion.

Highlights:

- Completely implemented a new payment gateway. Related techs are PHP, cURL, APIs
- Taken part in complete Design SPRINT.
- Familiar with AGILE practises.
- Worked with a live site and was responsible for changes to UI based on user data and research.
- Created numerous APIs using Python Programming Language.

Career Skills :

- Web Stack / Web Development
- Working knowledge of elements required for E-commerce Website
- Full Stack Development
- API Programming/Creation
- UI/UX Designing.

Softwares/Technical Proficiency:

Design Software : Figma and Adobe xd and Photoshop
Familiar DB's : SQLAlchemy and MySQL/sqlite3
Front-End : jQuery, CSS, HTML, AJAX
Back-End : Python, PHP

WORK EXPERIENCE

-  May 2020 - Present **Junior Software Engineer**
RIOT by Retail Forward, Dubai
 - Complete implementation of Network International Payment Gateway on the website using PHP.
 - Overseeing website redesign.
 - Managing Live Code of the website using PHP, AJAX and HTML5
 - Creating automated journeys using Autopilot
 - Creating and drafting requirements to lead programmer for updates and new features using JIRA
 - API implementation, creation and testing using Postman
 - Implementation of ChatBot on website using LiveChat
 - Autopilot integration
-  Nov 2019 - May 2020 **Operations and Development Intern**
RIOT by Retail Forward, Dubai
 - Working with Vend POS and Vend API development
 - Using AWS Lambda and deployment on AWS API Gateway using Python and AWS Tools.
 - Worked with Airtable database
 - Website optimisation and working with CMS systems.
 - E-commerce experience
 - Managing and monitoring the website.
 - Worked with JIRA, Confluence, Google Analytics, Imgix, Python scripting
 - Prototyping and wire-framing using Adobe XD and FIGMA.
-  Jan 2019 - Jul 2019 **Full-stack Developer Intern**
Alucor Limited, Dubai
 - Developed Web Application for internal company usage, to transition dependency from MS Excel to databases.
 - Used Flask, implemented Model View Controller (MVC) architecture for the

- application. Also implemented many libraries, mainly for authentication, authorization and security. Training for Flask was supervised under experienced professionals in the company.
- Created DB schema in MySQL and SQLite, and used ORM - SQLAlchemy.
 - Implemented JSON and CSV parsing to read data into the database.
 - Worked extensively with event-driven functions to provide user-friendliness.
 - Implemented front-end designs using HTML5/CSS, JavaScript and jQuery.
 - Ran checks and audits to optimize performance using Selenium and Chrome Lighthouse.
 - Developed basic REST APIs to handle the web application.
 - Used Git VCS, and Agile Programming methodology to gather requirements from the client.
 - Deployed on company server and implemented LDAP authentication.

EDUCATION AND QUALIFICATIONS

- Aug 2015 - Aug 2019 **Bachelor's of Engineering in Computer Science Engineering**
Birla Institute Of Technology and Science, Pilani Dubai, Dubai
- Worked with multiple Programming languages like Python, Java, C++, C and R on a variety of topics.
 - Head of Sponsorship for The GUILD BPDC.
 - Created a program to analyse historical stock data and make a prediction for the next days stock prices, using TensorFlow, Spyder and Python libraries.
